Over 14 years dedicated to Lookdev and Lighting, proving exceptional commitment and proficiency in the VFX industry.

My expertise in exploring and applying creative skills and technical methodology to achieve the output in terms of creating master lighting, set the master look for hero characters, digi doubles, creatures, groom and feathers including artistic and melanin workflow and complex creatures as per the references.

Vast experience across major international and domestic streaming/production houses, including Hollywood, Bollywood, Netflix, Hotstar, Prime, Apple TV, HBO, and FOX.

Unofficially served as Team Lead, successfully managing LookDev and Lighting teams, ensuring timely delivery, and frequently overseeing projects in the supervisor's absence. Dedicated mentor to junior artists.

## **Technical & Artistic Mastery:**

Highly skilled in bringing out the best in the work, adhering to standards, and possessing strong observation and detail-focus skills.

## **Production Experience in the past :**

Proven track record in contributing technical and creative skills to develop sequence-based complex master lighting shots as a Key Lighting TD.

Vast experience across major international and domestic streaming/production houses, including Hollywood, Bollywood, Netflix, Hotstar, Prime, Apple TV, HBO, and FOX.

I believe my expertise would help me to contribute my skills effectively to the team and overall success of the organisation.
